

SANFORD HEALTH FOUNDATION

GIVE FOR *children*

Since 1984, Sanford Children's Hospital in Fargo, a proud member of the Children's Miracle Network Hospitals, has served the region by providing the highest level of pediatric health care.

Every day, a local child's life is changed forever by an injury or unexpected diagnosis. But thanks to people like you, a world of hope and healing can be found close to home at Sanford Children's.

Your generosity supports everything from specialists who understand kids' developing bodies and minds to equipment, technology and services for every age, from newborns to teens.

Micropreemie Unit at *Sanford Children's!*

Sanford Children's neonatal intensive care unit (NICU) in Fargo provides the most advanced neonatal care for critically ill and fragile babies from 22 weeks gestation through 12 months old from across North Dakota and northwest Minnesota.

We invite our North Dakota Credit Unions to join us in launching a groundbreaking new unit with the Sanford Fargo NICU designed specifically to care for micropreemie babies (born before 26 weeks and weighing less than 28 ounces).

A dedicated unit within the Sanford Children's NICU, will provide a soothing environment with minimal stimulus to mimic what a baby experiences in the womb.

The unit will consist of 4 private patient rooms and include dim lighting and low noise levels to promote neurological development. The unit will be staffed around the clock by a multidisciplinary team of NICU nurses, lead physicians, respiratory therapists, dieticians, pharmacists, family support specialists, and others, who have undergone additional training in the complexities of caring for micropreemies and their families. The team will follow guideline-driven standards of care to ensure a consistent approach across the spectrum of care.
